BUILT FOR PRACTICE EFFICIENCY

🔒 Absolute Data Privacy & Sovereignty

Client files, M&A due diligence records, and IP discovery never leave your physical building. Fully satisfies strict NDA compliance, HIPAA regulations, and client-mandated cloud prohibitions.

⚡ Instant Large-Document Ingestion

Ingest thousands of deposition transcripts, patent specs, and contract sets in seconds using localized Retrieval-Augmented Generation (RAG) and semantic vector search.

🔑 Private Agentic Case Memory

Contextual memory vaults allow attorneys to build persistent case knowledge bases across multi-month litigation without leaking internal work product or strategy to commercial cloud models.

🔍 Audit-Ready Governance & Logs

Includes immutable local activity logging, strict Role-Based Access Controls (RBAC), and physical isolation designed to easily pass demanding corporate CISO compliance audits.
